Reference: Obtaining an Installation Permit for Manufactured Homes

Effective March 1st, 2005, the Manufactured Home permitting system will change to accommodate recent changes in the Tax computer system, and to gain more accurate information for the County property databases.

The initial stop in the permitting process will be in the Mobile Home Tax Office, Suite 700A. There you will register the Manufactured Home with the land parcel. Upon completion of registering with the Tax Office you will be instructed to the Building Safety Office, Suite 4100, where you will obtain your site installation permit.

For any additional information, please contact the Mobile Home Tax Office at 864-467-7158 or the Building Safety Permit Center at 864-467- 7060.
