Staff Report	<p>The subject property is in a suburban residential area primarily characterized by single-family homes and subdivisions. The <i>Imagine Greenville County Comprehensive Plan</i> designates these parcels as Residential Land Use 2, which proposes future densities of 3-6 units per acre. The Statement of Intent and Concept Plan for the proposed FRD, Flexible Review District, show a density of a maximum of 4 units per acre therefore complying with the Future Land Use Plan. One of the objectives of the plan is to encourage infill development in areas with existing infrastructure and future improvement plans. In addition, the site plan for the project complies with the standards for FRD, Flexible Review District. For these reasons, Staff recommends approval of the rezoning request.</p>

TRAFFIC IMPACT Traffic generated from the site will increase based on the requested density change proposed in the FRD, Flexible Review District. Under current zoning at full build out, the site could generate approximately 420 average daily trips. The proposed use could generate 750 average daily trips. The closest traffic count station on Blacks Drive is directly in front of the Greenville County Recreation District property. The 2011 traffic count was 2,600 average daily trips. Traffic volumes have decreased at this location by 7% over the past five years.

SUMMARY

The parcel is zoned R-20, Single-Family Residential, which provides for single-family residences at a maximum density of 2.2 dwelling units per acre. The Statement of Intent and Concept Plan for the proposed FRD, Flexible Review District, designate the property will be developed into a single-family residential development with a maximum of 75 units at a maximum density of 4 units per acre.

The Statement of Intent for this site also details signage, lighting, and architectural standards for the development (see attached SOI).

CONCLUSION

The subject property is in a suburban residential area primarily characterized by single-family homes and subdivisions. The *Imagine Greenville County Comprehensive Plan* designates these parcels as Residential Land Use 2, which proposes future densities of 3-6 units per acre. The Statement of Intent and Concept Plan for the proposed FRD, Flexible Review District, show a density of a maximum of 4 units per acre therefore complying with the Future Land Use Plan. One of the objectives of the plan is to encourage infill development in areas with existing infrastructure and future improvement plans. In addition, the site plan for the project complies with the standards for FRD, Flexible Review District. For these reasons, Staff recommends approval of the rezoning request.
