Date

Chief
Title

Sign #1:

To be positioned at the intersection of Slater Rd and Geer Hwy. Awaiting DOT.

Sign #2:

To be positioned on the grassy point near the mill and Foothills Family Services.

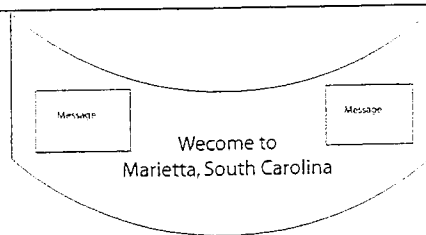

Sign #3:

To be positioned at the northwest of Marietta coming into the area on Geer Hwy.

Sign # 4: Welcome sign

Sign # 5: Informational sign that tells the community and passersby what events are taking place in the community of Slater, Marietta and Cleveland. This sign will reduce the amount of floppy, sagging vinyl signage currently being used to inform the public. The base of this sign will be stone/rock and the two directional boards will be digital and maintained by a local designee.

Sign Committee for the Community of Marietta and Slater SC

Here is a brief summary of our project and a little of what we hope to achieve for our community along with a brief history and significant tourist type events that will bring attention to our area.

PROJECT: In September 2014, Sen Corbin, Rep Burns, and Councilman Dill formed our committee to look into placing signage to define our community and welcome folks to the area. We have worked diligently to define strengths of our area, possible tourist draws, and design signage around central themes and the natural beauty of our area.

GOVERNMENT: Our town, Marietta, and the associated Mill Village, Slater, are unincorporated and function within upper Greenville County with a Special Purpose District for Fire protection and another for Water and Sewer. Greenville County continues to grow and develop towards our area and we want to do all we can to aid positive development for our community. We feel the most significant draws to our area are history (formed around an original land grant), natural beauty (gateway to the mountain, rivers, and lakes), The Swamp Rabbit Trail (recreation and tourism), and a link to the first Lunar Landing in 1969 (Slater Mill).

HISTORY: The history of Marietta, dates back to an original land grant of approximately 812 acres (circa 1790) when the Cherokee lands were opened for settlement. This same 812 acres passed down through three families and was named Marietta after a lady in the early 1800s. A Main Street was laid out to parallel the Main Street of Greenville, a right of way was granted for a railroad (designed to be part of the Greenville- Knoxville Line), and lots were laid out and sold to start a town. With crops failing in 1927, approximately 420 acres were sold to H.N. Slater (New England mill owners) to bring industry to the area. Hence, Slater Mill Village was built in the height of the Great Depression and has been in operation ever since, passing ownership from H.N. Slater and Sons, to JP Stephens, and now to JPS Composite Materials. In addition to being one of the few remaining mills from that era to still be in production, Slater's greatest claim to fame is producing one of the materials that was used in the space suits used during the Apollo 11 mission landing the first man on the moon. Slater is "The Mill That Went to the Moon!".

SIGNIFICANT EVENTS/DRAWS: In September 2015, the Smithsonian Institution will host an exhibit in historic Slater Hall. Slater was one of six communities in SC chosen for this honor.

also slaterhallsc.org

Last year the Greenville Health System Swamp Rabbit Trail had 501,000 users and \$6.7 million in tourism revenue. Greenville Parks Recreation and Tourism is working diligently to extend the trail beyond Travelers Rest, through Marietta, and on up to River Falls State Park. Once complete this rail-to-trail conversion will link southern Greenville County with Northern Greenville County. Already the Swamp Rabbit Trail has been a terrific boom for tourism and recreation in Greenville, Travelers Rest, and other communities lucky enough to be along the old railroad bed.
