Re: Tire Ordinance

Throughout South Carolina and many other states, outside storage of used tires/waste tires has become a problem. In addition to serving as a breeding ground for mosquitos and a habitat for various vermin, improperly stored used tires are an eyesore and a fire hazard.

Attached you will find a draft ordinance addressing storage/resale of used tires and the proper disposal of waste tires. Additionally, the administration and enforcement of the ordinance are outlined.

Staff is requesting the Committee's approval to hold a public hearing on the matter and forward to full County Council.

Staff is prepared to answer any questions the Committee may have and also any suggestions from the Committee are welcome.
