

(a) The installer submits plans to the District's Engineer between the dates of July 1, 1965 and August 31, 1965, inclusive, and within said period the District Engineer and the Engineer of the Greenville City Water Works approve such plans, the cost for such plans, specifications, and inspections to be borne by the installer or owner; that at such time the owner or installer shall also submit a proposed contract for the installation of such lines with complete cost breakdown to the District's Engineer.

(b) That upon the approval of the District's Engineer and the Engineer of the City of Greenville, the installer or owner will have such lines installed in accordance with the minimum construction requirements of the District and of the Greenville City Water Works, on or before the 31st day of December, 1965.

(c) That upon compliance with the foregoing the District will, upon request, consider the purchase of such private lines meeting the foregoing specifications on a basis of 58% of the cost of such construction, including engineering and inspection fees.

The District reiterates that the foregoing policy does not establish a promise to purchase and should the District fail in its contemplated sale of the water system to the City of Greenville, the District reserves the right to further negotiate with the owner or installer. Any installation failing to comply with the foregoing will be subject to the rules and regulations of the Commissioners of Public Works of the City of Greenville should the contemplated transfer of the Taylors Water System be consummated.

The within revised purchase policy adopted at a special meeting of the Commissioners of the Taylors Water & Sewer District held in Greenville County, South Carolina, on the 25th day of June, 1965.
