

17. No building shall be erected, placed, altered, or permitted to remain on any of said lots until and unless the building plans, specifications and plot plan showing the location of such building, the proposed type of construction and the exterior design have been approved in writing as to conformity and harmony of external design with the existing structures in the subdivision, and as to location of the building with respect to topography and finished ground elevation by the architectural committee, or by a representative designated by a majority of the members of said committee. One set of plans, specifications and plot plan shall be left or filed with the committee. In the event said committee, or its designated representative, fails to approve or disapprove such design, plans, specifications and locations within thirty (30) days after said plans have been submitted to it, or, in any event, if no suit to enjoin the erection of such buildings or the making of such alterations or improvements has been commenced prior to the completion thereof, or the substantial completion thereof (in excess of 60%) such approval will not be required and this covenant will be deemed to have been fully complied with and no suit or claim shall then be available to said committee or other lot owner as the same would not constitute a violation thereof.

(a) The architectural committee shall be composed of Frank S. Leake, Jr., G. Sidney Garrett and Calvin Summey. In the event of death or resignation of any member of said committee, the remaining member or members shall have full authority to act herein to either approve or disapprove plans, design or location or to designate a representative with like authority. A quorum of the committee shall constitute all members of the committee. Neither the members of such committee, or its designated representative shall be entitled to any compensation for the services performed pursuant to this covenant.

(b) In order to prevent duplication of buildings or improvements to be constructed, the committee is vested with the authority to approve or disapprove applications when the building or improvements have major features so similar to an existing building or improvement as to be construed as a practical duplication thereof, in the full and complete discretion of said committee.

(c) The terms, "building", "Improvement", or "residence", shall be deemed to include the erection, placement or alteration of any building or improvement including any wall or fence.

(d) Application for approval as herein required shall be made to one or more members of the committee by the submission of a request for approval, accompanied by building plans, specifications and plot plans in duplicate, one copy of which shall be retained by the committee and the other copy shall be returned to the applicant with either "approval" or "disapproval" plainly noted thereupon. If approved, the committee shall issue to the applicant a written permit which shall be displayed by the applicant upon the premises during the period of such construction or alteration and the failure to so display said permit shall amount to and constitute a disapproval of the plan and a violation of these covenants and restrictions.

IN WITNESS WHEREOF, the undersigned has set its hand and seal this the 10th day of December, 1966.

In the presence of:

John C. Taylor
Alderson C. Taylor
