

FIRST

W.—The Darlington County Steam Electric Generating Station under construction and nearing completion, situated in Darlington County near the City of Hartsville, South Carolina, including the power houses, buildings, structures generators, boilers, machinery, equipment, appliances, supplies, franchises, licenses, permits and consents with respect thereto, and all of the Company's lands, water rights, rights of way and easements; including, but not limited to, all such property acquired for or in connection with said generating station by and under the following deeds and records, which are referred to for a more particular description of said lands and rights, to wit:

- (1) Deed dated March 16, 1960, from F. B. Creech to Carolina Power & Light Company, which deed is recorded in the office of the Clerk of Court of Common Pleas for Darlington County, South Carolina, in Book 465, Page 357, and in the office of Clerk of said Court for Chesterfield County in Book 139, Page 134.
- (2) Deed dated March 10, 1959, from J. H. Rogers to Carolina Power & Light Company, which deed is recorded in the office of the Clerk of Court of Common Pleas for Darlington County, South Carolina, in Book 443, Page 504.
- (3) Deed dated February 6, 1959, from William C. Johnson, et al., to Carolina Power & Light Company, which deed is recorded in the office of the Clerk of Court of Common Pleas for Darlington County, South Carolina, in Book 443, Page 135.
- (4) Deed dated March 28, 1959, from F. B. Creech to Carolina Power & Light Company, which deed is recorded in the office of the Clerk of Court of Common Pleas for Chesterfield County, South Carolina, in Book 142, Page 198.
- (5) Judgment Roll No. 15,150 in the office of the Clerk of Court of Common Pleas for Darlington County, South Carolina, in the condemnation proceeding of Carolina Power & Light Company for acquisition of lands of F. B. Creech, et al., which Judgment Roll is recorded in the office of said Clerk in Pleadings and Judgment Book Q, Page 1 et seq.

SECOND

The Additional Electric Transmission Lines of the Company (including but not limited to lines described in the Mortgage and in the

First, Second, Third, Fourth and Fifth Supplemental Indentures thereto and which are now subject to the lien of the Mortgage, as supplemented, in which changes in voltage and other changes have been made), including the towers, poles, wires, switch racks, insulators and other appliances and equipment and all other property, real, personal or mixed, forming a part thereof or appertaining thereto, together with all the rights of way, easements, permits, privileges, licenses, consents and rights for or relating to the construction, maintenance, or operation thereof, through, over, under or upon any public streets or highways or other lands, public or private, including, but not limited to, the following described transmission lines:

- (214) The Elk Mountain-Burnsville 132 KV single-circuit transmission line extending from the Company's Elk Mountain 132 KV Substation near Asheville, North Carolina, to the Company's Burnsville 132 KV Substation near Burnsville, North Carolina, a distance of 25.94 miles, replacing the former Elk Mountain-Burnsville 110 KV single-circuit transmission line in the same location.
- (215) The Burnsville Junction-State Line 132 KV single-circuit transmission line extending from the Company's Elk Mountain-Burnsville 132 KV line near Burnsville, North Carolina, to the interconnection with the Appalachian Power Company's system at the North Carolina-Tennessee State Line, a distance of 15.78 miles.
- (216) The Sutton-Jacksonville West 110 KV single-circuit transmission line extending from the Company's Louis V. Sutton Steam Electric Generating Plant near Wilmington, North Carolina, to the Company's Jacksonville 110 KV Substation at Jacksonville, North Carolina, a distance of 47.04 miles.
- (217) The Camp Geiger 110 KV single-circuit transmission line extending from the Company's Sutton-Jacksonville East 110 KV line near Jacksonville, North Carolina, to the Company's Camp Geiger 110 KV Substation near Camp Lejeune, North Carolina, a distance of 1.18 miles.
- (218) The Kingstree Junction-Sumter 110 KV single-circuit transmission line extending from the Company's Florence-Pinopolis 110 KV Line near Kingstree, South Carolina to the Company's Sumter 110 KV Substation near Sumter, South Carolina, a distance of 26.94 miles.
