

WAR DEPARTMENT
Office of Officer in Charge of Utilities
Camp Sevier, S.C.

March 20, 1919.

No: 600.5

From Officer in Charge of Utilities, Camp Sevier, S.C.

To:

Subject: Camp Salvage.

1. Sealed bids, in duplicate, for purchase of structures and movable improvements built by the War Department, now located on the military reservation known as Camp Sevier, S.C., will be received at the office of the Construction Division, Washington, D.C., until noon April 2, 1919, and then opened in the presence of bidders who attend. The Chief of the Disposal Unit reserves the right to reject any or all bids.

2. The material which is to be offered for sale at this time comprises the following classes:

(a) Frame Buildings, such as mess halls, office buildings, barracks, and other typical frame structures commonly erected in Army training Camps. Heating plants which are permanently installed in buildings are included.

(b) Water pipes and such service connections as have not been previously removed. Water storage tanks and towers.

(c) Poles which have been used for support of lighting or telephone lines, fence posts,- both those used as such, and those used in connection with military training.

(d) 5273 feet standard railway track and appurtenances north of Southern Railroad tracks.

3. For convenience in making estimates on which to base bids, there is furnished herewith a blue print showing the areas covered by Camp Sevier, indicating the permanent structures and two pamphlets listing separately the buildings and water mains North and South of the tracks of Southern Railway. No buildings erected by the various recreational activities are to be included in estimates. In making proposals upon this work, figures should be based upon the following divisions:

- Structures and permanent equipment North of Southern Railway tracks.
- (b) Structures and permanent equipment South of Southern Railway tracks.
- (c) Structures and permanent equipment entire camp.

As an alternate method of making proposals it is permissible for any any bidder to include as a part of his bid a satisfied bill of release from damages of all description claimed by the owners of the property on which the structures bid for are situated.

4. In addition, bids should carry notation to indicate the allowance or deduction bidders would make in case a group of buildings were not sold for salvage. This allowance should include the following groups:

- (a) The hospital area known as area 21, including the water mains within the limits of this district.
- (b) The Warehouses, numbers 1 to 15, inclusive, located in area 23, 3 Ordnance Magazines, the Hay Sheds, and miscellaneous structures facing the Warehouse Court on South side of same.
- (c) The Remount Depot, comprising the structures located within the limits of area 14.
- (d) The water mains on South side of Southern Railway.

5. All bids should be accompanied by properly executed bond or certified check for the amount of twenty percent of the proffer made in the bid, and accompanying same as an evidence of good faith on the part of the bidder, and which would forfeit to the Government in case award of contract was made and successful bidder failed or refused to carry out his contract.

6. It is definitely understood that in removing buildings from site of this camp, material which has no sale value, but which is a product of building salvage, shall be either buried or removed from the camp site. It is also understood that the Contractor will not remove concrete floors or pillars supporting buildings as allowance will be made to land owners in the way of damages where buildings are taken away. Wooden posts and foundations will be taken up and depressions made thereby, filled. Trenches made during the process of removing water mains will be filled and leveled over.

7. Upon acceptance of any bid, the Government will vacate all buildings included in such sale and relinquish all responsibility for guarding and care of same, - due allowance of time being given for necessary adjustments. Land rent is paid to July 1, 1919. Contractor will be liable for rent after that date.

Harry E. Jordan,
Capt. Const. Div. Q.M.C.

NORTH SIDE

B U I L D I N G R E P O R T

UTILITIES OFFICER, CAMP SEVIER, S. C.
