

FIG. 3. The R with all odd singularities removed is shown. The red dots are the positions of the poles of the R function, which are all real except for two complex conjugates, and the green dots are the zeros of the R function. The blue dots are the points at which the function R of the poles branch, that is, the points where the function R has a pole or a zero.

TO HAVE AND TO HOLD all and singular the said premises unto the said **M.** **C.** **S.** **and his wife** for ever.
