If however the monthly payments made by the Mortgagor under (b) of paragraph 2 preceding shall not be sufficient to pay taxes and assessments, and insurance premiums when the same shall become due and payable, then the Mortgagor shall pay to the Mortgagor any amount necessary to make up the deficiency, on or before the date when payment of such taxes, assessments, or insurance premiums shall be due. In event of foreclosure of this mortgage or other transfer of title to the Mortgagor or to any person claiming the indebtedness secured hereby, all right, title and interest of the Mortgagor in and to any insurance policies then in force shall pass to the purchaser or grantee.

7. That he hereby assigns all the rents, issues, and profits of the mortgaged premises to me and after my death

have the right to have a receiver appointed of the rents, issues, and profits, who, after deducting all charges and  
expenses attending such proceedings, and the expenses of his receiver, shall apply the residue of the  
rents, issues, and profits to and for the payment of the debt so assigned.

3. What of the possibilities of non-cooperative, decentralized urban planning? The first step would be to decentralize the planning function, so that each town or city could plan its own development, based on its own needs, the local resources available, and the local political situation. This would mean ending the power of the central government to impose its will on local communities, and giving them greater autonomy over their own affairs. It would also mean ending the concentration of power in the hands of a few individuals or groups, such as the Merchants and the oligarchs, who have traditionally controlled the economy and politics of Mexico.
