Mrs. Patricia P. Harrison
Highway 14
Greenville, South Carolina

Dear Mrs. Harrison:

Piedmont Natural Gas Company, agrees to install two services from the ten-inch main to, and including, the gas meter at no cost to you in consideration of your signing an Agreement for a Right-of-Way on the Northwest side of South Carolina Highway 14 at Big Rocky Creek, on which Piedmont will install a ten-inch gas main.

Of the two services we will install, one service line and meter will go to your home and one service line and meter will go to your shop; both lines will meet codes applicable to the area. We will review with you the proposed routing of the lines, such routing to be subject to your approval. These services are to be installed after the ten-inch main has been completed and gas is on the main line. Once we begin work on the lines to your residence and shop building, we will complete the work in no more than ten (10) working days subject to weather interruptions, strikes and/or acts of God.

The title to, and the right to, possession, inspection and maintenance of such service lines shall at all times remain in the possession of the Company, however under no circumstances will we disturb surface areas without appropriate notification and permission. In the event that permission is not granted, we would have no choice but to discontinue your service. We will maintain these service lines at no cost to you, excluding damages by outside forces or changes in grade or terrain.

We agree to correct any damages that should occur to your property improvements as a direct result of work we perform in connection with the main gas line through the Right-of-Way and/or the service lines to your residence and shop. We also agree that future activities on our behalf, including maintenance and routine service work, upon or through said Right-of-Way, will be subject to conditions specified on an attachment to the Right-of-Way Agreement, and that we will abide by same.

(AFFIDAVIT CONTINUED)
