

RULES AND REGULATIONS

Referred to in and Made a Part of the Within Permit

Paragraphs 1, 2 and 3 apply in the case of *Industrial Wastes.

Paragraphs 2 and 3 apply in the case of **Commercial Wastes.

Paragraph 3 only applies in the case of ***Household Wastes.

1. A plat of the property showing accurately all pipe lines and drains now existing shall be supplied, together with plans and specifications covering the work to be performed.
2. A statement of the type of industry to be served and a complete schedule of all process waters and water-borne wastes produced or expected to be produced; including a description of the character of such wastes, the daily volume and maximum rates of discharge and representative chemical analyses, shall be filed with this application.
3. In the event that the proposed pipe line is not to connect directly with a main trunk line of Greater Greenville Sewer District but, instead, connects or is to connect with a pipe line of the City of Greenville, Parker Water and Sewer Subdistrict, or some other district or subdistrict, then the service requested hereunder shall be subject to the approval, regulations and charges of the City of Greenville and/or the district or subdistrict through whose pipe lines this waste will have to be conveyed.

A PERMIT, if granted hereunder, shall be with the understanding on the part of the applicant:

- a. That this service is a privilege and not a right.
- b. That all charges for this service shall constitute a lien upon the property served.
- c. That the service charge as stated herein shall be subject to change by the Commission.
- d. That the lines and appurtenances on the property served and the connections to the public lines must all be constructed and maintained by the owner of the property served at his expense, and that these must be constructed in accordance with the specifications of the Greater Greenville Sewer District Commission and subject to the supervision and inspection of the Commission.
- e. That he shall furnish any additional information relating to the installation, connection or use of the waste water pipe lines for which this PERMIT is sought as may be requested by the Commission.
- f. That he will accept and abide by all the rules and regulations of the Greater Greenville Sewer District Commission now in force or which may hereafter be adopted.
- g. That he will operate and maintain any waste pre-treatment facilities that may be required as a condition of the acceptance into the public waste water collection system of any industrial or commercial wastes involved, in an efficient manner at all times and at no expense of the Commission.
- h. That he will notify the Greater Greenville Sewer District Commission immediately in the event of any accident or other occurrence that occasions the discharge into the public waste water collection system of any waste or process waters not covered by this PERMIT.
- i. That he will police his lines and be responsible to see that no person, firm or corporation not authorized herein to use this service, taps on, connects or uses such service.
- j. That no roof drains, surface waters or other wastes or waters that are permitted by ordinance, regulation or custom to be discharged into surface or storm drains shall be connected with or be discharged into the public contaminated waste water collection system.
- k. That the Commission shall at all reasonable times have the right, privilege and access to the property served for the purpose of inspection, and that cooperation will be given the Commission or its representatives in inspections and in any sampling and study of the wastes produced, and any facilities required or provided for pre-treatment.
- l. That the violation of any of the provisions, terms or conditions herein shall give the Commission the right, at its option, to disconnect the lines and terminate this service upon ten days' notice, or, to require the payment to the Commission of such fine or penalty as the Commission shall assess.

No matter what the agreement may be between the land lord and tenant, if the tenant does not pay the Sewer Charge to the Commission the land-lord shall be liable therefore.

*Industrial Wastes shall mean the liquid or water-borne wastes from industrial processes as distinct from domestic or household wastes. Synonyms: Manufacturing Wastes. Trade Wastes.

**Commercial Wastes shall mean waste waters from commercial laundries and like industries.

***Household Wastes shall mean the liquid or water-borne wastes from kitchens, water closets, home laundries, etc.
