My Commission Expires: _____

1. No trees to be cut except ones that have been marked by agreement between the Grantor and the Piedmont Engineering Co. in the 25 foot right of way. All holly, dogwoods and shrubs in right of way to be taken up, balled and reset after construction.
2. Manhole to be installed at least 8" below surface of ground.
3. Stub out to be constructed in the manhole for grantor to connect his private sewer line for sewer service.
4. Sewer line crossing stream to be underflow of stream. The banks of stream are to be replaced with concrete and brick, 8" thick, set on concrete base 12 to 15 inches wide and 12" deep or, if using rock, this should be 14" wide at base and 12" wide at the top extending 12" below creek bed. Either lower extension of the wall, rock or brick, will be 12" below creek bed, extending 12 to 12½ feet laterally from the sewer pipe and extending up for 3' above creek bed. This is to be on both creek banks.
