Said two feet strip of land to extend for the distance above set out parallel and adjacent to the right of way of the South Carolina Highway Department, said right of way and easement is granted for the purpose of allowing the grantee to construct and maintain a drainage pipe running from property of the grantee along an alley jointly owned by the grantee and another property owner to a point on Laurens Road and thence along Laurens Road for a distance of 106 feet, plus or minus, to a catch basin, the property of and maintained by the South Carolina Highway Department. The purpose of said right of way is to control surface water which may accumulate on the property of the grantee and/or property between the grantee's property and other property of the grantor.
