

site improvements within said right of way, with said authorization to expire in sixty days, unless otherwise extended in writing by the Department. It is further understood that Standex agrees and understands that the compensation paid under this settlement includes compensation for the property owner to remove and relocate the sprinkler system from the Department's right of way and that the Department has the right to remove and destroy any portion of the sprinkler system not removed from the Department's right of way, without any additional compensation to the property owner either for relocation or under eminent domain.

IN WITNESS WHEREOF, we have hereunto set our hands and seals this 17th day of October, 1979.
