The Margin between my rate of interest and the Index Rate Will be 2.25 4.
If the Index is no longer available, the Note Holder will choose a new index which is based upon comparation
information. The Note Holder will give me notice of this choice.
The first Index figure for this Note is .8,680. %. It is called the "Grainal Index."
The most recently available Index figure as of the date. 45 days before each Change Date is called the "Current
Index."
(C) Calculation of Changes
Before each Change Date, the Note Holder will determine any change in my rate of interest. The Note Holder will
calculate the amount of the difference, if any, between the Current Index and the Original Index. If the Current Index is
higher than the Onginal index, the Note Holder will add the difference to the Initial Rate of Interest. If the Current Index
is lower than the Original Index, the Note Holder will subtract the difference from the Initial Rate of Interest. The Note Holder will then round the result of this addition or subtraction to the nearest one-eighth of one percentage point
Holder will then round the result of this addition of subtraction to the neutron of the same and the same are a contract to the neutron of the same and the same are a contract to the contract to the same are a contract to the contract to
(0.125%). This rounded amount will be the new rate of interest I am required to pay.
The Note Holder will then determine the new amount of my monthly payment that would be sufficient to repay the
outstanding principal balance in full on the majority date at my new rate of interest in substantially equal payments. The
result of this calculation will be the new amount of my monthly payment.
