Building / Zoning Feasibility Application Guidelines

This program provides a method for owners and potential tenants of buildings to meet with the Building Inspector at the proposed building location to discuss the suitability of the proposed use of the facility prior to securing a Change of Tenant or other Construction permit. This process will help identify any conflict with change of uses, differing commodities that will be stocked in the building and the overall general code compliance for the proposed occupancy.

1. **Tax Map No.** for the property. You must enter this number on both applications. This can be obtained from the owner of the property or the persons you are proposing to rent or lease the space from; or, through Real Property Services 864-467-7300; or by internet: [https://www.greenvillecounty.org/disclaimer/PublicRecords.aspx?DirURL=RealProperty](https://www.greenvillecounty.org/disclaimer/PublicRecords.aspx?DirURL=RealProperty).

4. Administrative internal building and zoning reviews will be performed to verify that the proposed use of the site and building occupancy classification is permitted at the proposed location. Also verify any “Special Purpose” districts, if in an Airport Environ Zone it is necessary to submit [Airport Environ Area Application](https://www.greenvillecounty.org/disclaimer/PublicRecords.aspx?DirURL=RealProperty) to GSP. (address on form)

5. The Building Inspector will contact the applicant and the Fire Marshal to arrange an on-site meeting to review the building and proposed use of the facility.
