**My interest in serving on the PLANNING COMMISSION is:**

I have lived in the Greenville area since 1978. I have obviously seen tremendous change since then, and I want to be involved in ensuring that the continued growth and direction is managed correctly for the good of all Greenville County residents. I worked full time while bringing up a family, but now that I'm retired I want to give back to the community I love.

**Describe your understanding of the position for which you are applying:**

As I think I understand this position, I would be involved in evaluating and assessing requests for change, growth, and development. This responsibility would be to ask the right questions, and make sure that the change both immediate and in the future is in the benefit of the community

**Describe your strengths or skills that would positively contribute to the PLANNING COMMISSION:**

In my last assignment at Michelin before retirement, I was the global product owner for a specialized software used in our inspection centers. In that role I had to evaluate and design software changes and improvements that would improve and benefit the most users, without detriment to any. As such I have very strong analytical skills, contingency planning, and organizational skills that I think could be put to good use in this position

**My community topics of concern that relate to the PLANNING COMMISSION are:**

I want to ensure that the continued growth to my community is done in the right way. In my experience some people use tunnel vision in their decision making which can lead to issues and higher cost down the line. I want to ensure that when looking at big picture, the scope is not directed to short term gain with long term disadvantages
