

Zoning Docket from July 20th, 2026 Public Hearing

Docket Number	Applicant	CC DIST.	STAFF REC.	GCPC REC.	P&D REC.	COUNCIL ACTION
CZ-2026-031	Greenville County Council Countywide Text Amendment to amend Article 8, <u>Special Purpose and Review District Regulations</u> , of the Greenville County Zoning Ordinance to add Section 8:13, <u>MCC, Mountain Creek Community District</u>	All	Approval with Conditions	Approval with Conditions as amended 7/22/26	Approval with Conditions as amended 8/3/26	
Public Comments	Some of the general comments made by Speakers at the Public Hearing on July 20th, 2026 were: <u>Speakers For:</u> - Citizen - Concerned with the current and future water runoff issues and the proposed text amendment would help protect this area - Would like to retain existing tree canopy - Current homeowners are having to pay a lot of money due to runoff - Attorney - Has been working for the last year to create the proposed overlay - The proposed overlay is intended to protect the environmentally sensitive areas within the proposed boundary <u>Speakers Against:</u> None List of meetings with staff: None					Petition/Letter For: Email - 1 <u>Against:</u>
Staff Report	REQUEST HISTORY and EXPLANATION Residents of the Mountain Creek Community, concerned with increased development trends in their area and the impacts that they bring, have worked to create a new overlay district for their community aimed at reducing these impacts. Staff has assisted in drafting ordinance regulations which reflect the goals of the community, and has also helped facilitate community meetings to share information and gather feedback from the greater population of the subject area. The resulting overlay district aims to reduce flooding caused by loss of natural areas, improve screening and buffering of developments, preserve open space, and protect historic sites. The proposed amendment would establish Section 8:13: <u>MCC, Mountain Creek Community District</u> as part of the Greenville County Zoning Ordinance. The requirements of this overlay district would apply to new major subdivisions, new review districts, and major changes within existing review districts. Within the district boundary, applicable developments would have a 50-foot undisturbed perimeter buffer, with additional screening required from roadways. There would be a 100-foot riparian buffer along all streams and jurisdictional waters of the state. Sites must be developed to store stormwater					

Zoning Docket from July 20th, 2026 Public Hearing

	run-off for a 100-year storm event using low-impact development features. Also, 50% of the total site acreage must be dedicated towards protected open space. And lastly, all Historic Sites on the subject property must be noted on plats. This text amendment request went as a Consent Item before County Council on June 2, 2026. A Zoning Public Hearing was held on July 20th, 2026.
	CONCLUSION and RECOMMENDATION Staff is of the opinion that the proposed amendment would increase watershed protections for the Mountain Creek area, which are major concerns for the local citizens. The community is concerned that the increase in impervious development and loss of vegetated areas along wetlands and streams could worsen flood events. Staff does, however, recommend revisions to the version of the text amendment which was initiated at the Planning & Development Committee. These revisions are to better align the language of the proposed Section 8:13 with existing language in the County's Land Development Regulations and Stormwater Ordinance. They would also clarify the variance process from these requirements. Based on these reasons, staff recommends approval of the proposed text amendment, with the submitted revisions.
PC	At the July 22, 2026 Planning Commission meeting, the Commission voted to approve the text amendment with the conditions as presented by Staff with the additional revision to remove the following statement, "The provisions and requirement of this Ordinance shall expire two (2) years from its effective date unless re-adopted by Greenville County Council."

Greenville County Planning Division
Department of Zoning Administration
301 University Ridge Suite S-3200
Greenville, SC 29601
Office: 864.467.7425

TO: County Council
Planning and Development Committee
Planning Commission

FROM: Todd Baxley, Deputy Zoning Administrator

RE: CZ-2026-031

APPLICANT: Greenville County Council

PROPERTY LOCATION: Countywide

PIN/TMS#(s): N/A

Request: To amend Article 8, Special Purpose and Review District Regulations, of the Greenville County Zoning Ordinance to add Section 8:13, MCC, Mountain Creek Community District

ACREAGE: N/A

COUNCIL DISTRICT: All

**REQUEST HISTORY AND
EXPLANATION:**

Residents of the Mountain Creek Community, concerned with increased development trends in their area and the impacts that they bring, have worked to create a new overlay district for their community aimed at reducing these impacts. Staff has assisted in drafting ordinance regulations which reflect the goals of the community, and has also helped facilitate community meetings to share information and gather feedback from the greater population of the subject area. The resulting overlay district aims to reduce flooding caused by loss of natural areas, improve screening and buffering of developments, preserve open space, and protect historic sites.

The proposed amendment would establish Section 8:13: MCC, Mountain Creek Community District as part of the Greenville County Zoning Ordinance. The requirements of this overlay district would apply to new major subdivisions, new review districts, and major changes within existing review districts.

Within the district boundary, applicable developments would have a 50-foot undisturbed perimeter buffer, with additional screening required from roadways. There would be a 100-foot riparian buffer along all streams and jurisdictional waters of the state. Sites must be developed to store stormwater run-off for at least a 100-year storm event and incorporate low-impact development features. Also, 50% of the total site acreage must be dedicated towards protected open space. And lastly, all Historic Sites on the subject property must be noted on plats.

This text amendment request went as a Consent Item before County Council on June 2, 2026.

A Zoning Public Hearing will be held on July 20th, 2026.

CONCLUSION:

Staff is of the opinion that the proposed amendment would increase watershed protections for the Mountain Creek area, which are major concerns for the local citizens. The community is concerned that the increase in impervious development and loss of vegetated areas along wetlands and streams could worsen flood events. Staff does, however, recommend revisions to the version of the text amendment which was initiated at the Planning & Development Committee. These revisions are to better align the language of the proposed Section 8:13 with existing language in the County's Land Development Regulations and Stormwater Ordinance. They would also clarify the variance process from these requirements.

**STAFF
RECOMMENDATION:**

Based on these reasons, staff recommends approval of the proposed text amendment, with the submitted revisions.

No. _____

AN ORDINANCE

AN ORDINANCE TO AMEND THE GREENVILLE COUNTY ZONING ORDINANCE, ARTICLE 8, SPECIAL PURPOSE AND REVIEW DISTRICT REGULATIONS, BY ADDING SECTION 8:13 TO ESTABLISH THE MOUNTAIN CREEK COMMUNITY (MCC) DISTRICT AS SHOWN ON THE MAP LABELED “EXHIBIT A” ATTACHED HERETO.

BE IT ORDAINED BY THE GREENVILLE COUNTY COUNCIL:

The Mountain Creek Community (MCC) District is established through an amendment to the Greenville County Zoning Ordinance to be included in Article 8 as a new overlay district authorized by S.C. Code Ann. § 6-29-720.

Section 8:13 MCC, Mountain Creek Community District

8:13.1 Intent and Purpose

The intent and purpose of the Mountain Creek Community (MCC) District is to:

- A. Prevent flooding and storm water challenges within the Mountain Creek Watershed. This is particularly important on infill parcels with environmentally sensitive features that abut existing development, such as:
 - 1. Wetlands, floodplains, riparian areas, wildlife habitats, mature forests, and unique geological formations;
 - 2. Waterways, aquifers, and areas that provide water recharge;
 - 3. Steep slopes, ridges, gorges, and ravines; and
 - 4. Historic buildings, cemeteries, and lands, and designated open spaces.
- B. Improve screening and buffering requirements in order to:
 - 1. Preserve permeable open space and encourage preservation of valuable tree cover, which aids in diffusing rainfall;
 - 2. Promote the overall health and strength of the community’s economy in order to maintain property values, preserve the community character, and foster ownership longevity;
 - 3. Screen vehicular drives and parking areas; and
 - 4. Preserve the lower density character of the MCC.
- C. Preserve open space in order to align with the goals of the 2020 Plan Greenville County Comprehensive Plan (Objective D-2).
- D. Provide for better protection of the district’s historic sites, such as the Camp Sevier World War I training facility.

8:13.2 Applicability

The MCC shall apply to:

- A. All new major subdivisions;

- B. All existing major subdivisions which are substantially modified or expanded. For the purposes of this Section, “substantially modified” shall mean those requests which must be reviewed by the Greenville County Planning Commission.

This district, when applied, does not change the underlying zoning classification. All development shall comply with the requirements and standards specified herein and in all respects with other applicable codes and ordinances; where the standards of this Section conflict with other applicable standards, the more restrictive standard shall govern.

8:13.3 Official Mountain Creek Community District Boundary

The MCC boundary shall be shown on the Official Zoning Map of Greenville County as depicted on Exhibit A.**8:13.4 Definitions**

For the purposes of this Section:

- A. “Storm Water Management Ordinance” or “SWO” means the Greenville County Storm Water Management Ordinance, Article III of Chapter 8 of the Greenville County Code, as amended.
- B. “Stormwater Management Design Manual” or “SMDM” means the Greenville County, South Carolina Stormwater Management Design Manual, as amended, adopted pursuant to the SWO.
- C. “Low Impact Development Best Management Practices” or “LID BMPs” means those best management practices that reduce runoff and pollutant loads by encouraging the interception, evapotranspiration, infiltration, and/or capture and reuse of storm water runoff, as identified as low impact development practices by the Land Development Division pursuant to the SMDM.
- D. “Total development acreage” means the gross acreage of the parcel or parcels subject to the development application, inclusive of areas to be dedicated as rights-of-way.
- E. References in this Section to specific sections, divisions, appendices, or technical specifications of the Storm Water Management Ordinance or the Stormwater Management Design Manual mean those provisions as amended from time to time and include any renumbered or successor provisions.

8:13.5 Forested Perimeter Buffer and Screening

- A. A minimum fifty (50) foot undisturbed buffer shall be provided along the perimeter of the development. Within the fifty (50) foot buffer, existing vegetation and trees shall be preserved except as otherwise permitted in subsection E below.
- B. Areas of the buffer which are lacking in existing trees shall be supplemented with planted trees at the following ratios:
 - 1. One (1) canopy tree per forty (40) linear feet of buffer length. Canopy trees shall have a minimum two-inch (2”) caliper at time of installation.
 - 2. One (1) understory tree per twenty (20) linear feet of buffer length. Understory trees shall have a minimum installed height of six (6) feet.
- C. In those areas where existing landscape does not create a visual screen between the development and adjoining road frontages, a landscape screen at least six (6) feet in height shall be provided. Screening shall consist of evergreen plants at least six (6) feet in height at time of planting and capable of forming a continuous screen. Screening plant material shall not be placed within twenty-five (25) feet of the road right-of-way and shall be arranged in an informal manner.
- D. Berms, privacy fences, and walls may not be utilized to meet the screening requirements and are not permitted within the required buffer area.

- E. The fifty (50) foot buffer provided along the existing road frontage adjoining the subdivision shall be designated as open space or common area. Permitted activities and development within the road frontage buffer are limited to the following:
 - 1. Street or driveway access;
 - 2. Walkways, paths, trails, and other elements associated with passive recreation or the provision of continuous pedestrian and bicycle connections between adjoining properties;
 - 3. Entrance features and signage to the extent permitted; and
 - 4. Clearing for sight distances as required for reasonable traffic safety.
- F. In the event that the required buffer is disturbed and/or cleared in violation of this Section, the land grade shall be returned to its pre-disturbance state, and the specified buffer width and planting requirements shall be doubled for the purposes of re-establishing the buffer area. This remedy is in addition to, and not in lieu of, the violations, penalties, and enforcement provisions of Article 13 of this Ordinance.

8:13.6 Stream Protection (Riparian Buffers)

- A. **Applicability.** Riparian buffers shall be provided along all classes of streams and jurisdictional waters of the state in accordance with the current Greenville County Storm Water Management Ordinance, including Section 8-69 (Stream Protection), and the Greenville County Stormwater Management Design Manual.
- B. **Exemptions.** In areas covered by an approved U.S. Army Corps of Engineers permit per the Clean Water Act, an applicant may be exempt from the County's riparian buffer requirements at the discretion of the County Engineer or the County Engineer's designee.
- C. **Manual and Specifications.** Riparian buffers must comply with Greenville County's "Riparian Buffer Design and Maintenance Manual" and the County's "Stormwater Management Design Manual Technical Specification WQ-11: Permanent Water Quality Stream Buffer."
- D. **Delineation.** Within the proposed project boundary, all jurisdictional waters or streams classified as waters of the state shall be delineated by a certified licensed professional using U.S. Army Corps of Engineers and SCDES Water Classifications and Standards and shall be shown in the Storm Water Management and Sediment Control Plan along with all natural buffer areas. Delineation as described in this Section is not required for preliminary plan review and approval.
- E. **Buffer Requirements.**
 - 1. A minimum 100-foot riparian buffer, as measured from the top of the stream bank inland, shall be established along each side of all intermittent, perennial, and blue line streams.
 - 2. A minimum 100-foot riparian buffer shall be established along all jurisdictional waters of the state.
 - 3. Where the Storm Water Management Ordinance requires a greater buffer width, the greater width shall apply.
- F. *No Disturbance.* Within a riparian buffer, the existing vegetation shall not be cleared or disturbed. Grading, stripping of topsoil, plowing, cultivating, filling, or storing materials and machinery are prohibited within the buffer, except as provided in the Storm Water Management Ordinance.
- G. *Encroachments.* The following structures and activities, if approved by the Greenville County Land Development Division or the State of South Carolina, are permitted within the riparian buffer:
 - 1. Road crossings, bridges, trails, and utilities;

2. Stream restoration projects;
3. Scientific studies, including water quality monitoring and stream gauging;
4. Horticultural practices, including thinning and planting, used to maintain the health of individual trees; and
5. Removal of hazard trees and invasive species.

8:13.7 Storm Water Management

- A. General. All new development must meet the requirements of the current Greenville County Storm Water Management Ordinance. The additional requirements of this Section 8:13.7 and Section 8:13.8 apply within the MCC boundary and shall be administered, reviewed, and enforced by the Land Development Division in the same manner as the requirements of the Storm Water Management Ordinance.
- B. Enhanced Runoff Control. In addition to the requirements set forth in Storm Water Management Ordinance Section 8-74 (Minimum Runoff Control Requirements), sites within the MCC boundary shall control post-development peak discharge rates so as not to exceed pre-development peak discharge rates for the 100-Year Frequency Storm event.
- C. Definition. A “One Hundred (100) Year Frequency Storm” means a storm capable of producing rainfall expected to be equaled or exceeded on the average of once in 100 years. It also may be expressed as an exceedance probability with a one (1) percent chance of being equaled or exceeded in any given year.
- D. Impervious Surfaces. Impervious surfaces shall be minimized within the MCC boundary whenever practicable, as determined by the Land Development Division during plan review.

8:13.8 Low Impact Development Features for Water Quality

- A. *Purpose*. Low impact development (LID) is used in Greenville County to reduce runoff and pollutant loads by utilizing storm water practices that encourage the interception, evapotranspiration, infiltration, and/or capture and reuse of storm water runoff.
- B. *Applicability*. This Section applies to all land disturbing activity, where appropriate, as defined in the current Greenville County Storm Water Management Ordinance, except any development activity expressly exempted by Storm Water Management Ordinance Section 8-57 (Prohibitions and Exemptions).
- C. Requirements.
 1. All development subject to this Section shall include LID BMPs in the common areas and open spaces to the maximum extent practicable to achieve water quality by pollutant-of-concern reductions, in accordance with the SMDM.
 2. No more than six (6) lots within a major subdivision may have permitted individual-lot LID BMPs.
 3. The appropriateness of a particular LID BMP depends on a number of factors, including site characteristics, the proposed land use, and the proposed intensity or density of development. SMDM Appendix F (Post Construction Water Quality BMP Suggested Uses) shall guide the selection of BMPs for a particular development site; qualifying LID BMPs shall be identified by the Land Development Division pursuant to subsection E below.
- D. *Technical Infeasibility*. An applicant may demonstrate technical infeasibility of LID BMPs through a site-specific analysis prepared by a registered professional engineer, subject to review and approval by the Land Development Division.

E. LID Best Management Practices.

1. Generally. LID BMPs that may be utilized on a site are limited to those identified as low impact development practices by the Land Development Division pursuant to the Greenville County, SC Stormwater Management Design Manual (SMDM).
2. Design Standards. All LID BMPs utilized on a site shall meet the design and construction specifications and details established in the SMDM.

8:13.9 Open Space

8:13.9.1 Open Space Requirements

- A. At least fifty percent (50%) of the total development acreage shall be set aside as protected open space for natural habitat preservation, passive recreation, and/or conservation for agriculture.
- B. Permitted residential density and open space design shall adhere to Sections 11.3 and 11.4 of the Greenville County Land Development Regulations.
- C. Where existing, designated open space exists on adjacent parcels, designated open space shall be contiguous with such open space in order to provide large uninterrupted expanses of open space.
- D. All open space areas shall have a minimum of one primary access point from an internal subdivision road. Additional secondary access points are encouraged. Primary access points shall not be less than twenty (20) feet in width. Secondary access points shall not be less than six (6) feet in width. Primary and secondary access points to open space shall be shown as part of the open space and shall not be part of an individual lot, nor shall they be easements.
- E. Land dedicated for open space shall not include rights-of-way of high-tension electrical transmission lines, oil or natural gas lines, the rights-of-way of existing and proposed streets, or such uses as community swimming pool(s), clubhouses, and similar uses. Fenced detention or retention areas used for storm water management shall not be included in the calculation of the required open space. Recreational lakes or ponds may be included in the land designated as open space.
- F. All required buffers may be credited toward meeting open space requirements.
- G. No more than fifty percent (50%) of designated open space shall be wetlands and/or floodplains.
- H. Open space shall be physically connected, whenever possible, to other designated open spaces.

8:13.9.2 Open Space Ownership and Management

The developer or subdivider shall select the land dedicated for open space and the type of ownership. Ownership of the designated open space may be held by:

- A. Non-profit or quasi-public organizations committed to the protection and conservation of open space, subject to their acceptance;
- B. A homeowners association, or cooperative associations or organizations;
- C. Shared, undivided interest by all property owners within the subdivision; or
- D. Public jurisdictions or agencies, subject to their acceptance.

8:13.9.3 Open Space Maintenance

Designated open space shall be maintained in a natural condition but may be modified to improve appearance, functioning, or overall condition. Normal maintenance and the removal of dead or fallen trees are permitted and recommended. The cost and responsibility of maintaining open space and any

facilities located thereon shall be borne by the property owner and/or homeowners association. Permitted modifications may include:

- A. Reforestation and forest management;
- B. Pasture or cropland management;
- C. Landscaping to enhance appearance and screening;
- D. Removal of invasive species;
- E. Stream bank protection; and
- F. Passive recreation such as trails, picnic areas, and common greens.

8:13.10 Historic Preservation

“Historic sites” means those buildings, sites, objects, structures, or districts that are:

- A. Listed on the National Register of Historic Places;
- B. Determined eligible for listing on the National Register of Historic Places by the South Carolina State Historic Preservation Office; or
- C. Designated as locally historic properties by County Council pursuant to Section 8:7.1-7, Designation of Historic Properties.

The location of all Historic Sites must be noted on plats. Historic Sites must be preserved whenever possible, unless to do so would cause substantial hardship, as defined in Section 8:7.2-10 of the Zoning Ordinance.

8:13.11 Administration, Relief, and Enforcement

- A. Administration. The Zoning Administrator shall administer and enforce Sections 8:13.5 (Forested Perimeter Buffer and Screening), 8:13.9 (Open Space), and 8:13.10 (Historic Preservation). The Land Development Division shall administer and enforce Sections 8:13.6 (Stream Protection) and 8:13.7 and 8:13.8 (Storm Water Management and Low Impact Development) in conjunction with its administration of the Storm Water Management Ordinance and the Land Development Regulations.
- B. Variances from Storm Water and Stream Protection Requirements. The requirements of Sections 8:13.6, 8:13.7, and 8:13.8 are adopted in furtherance of, and are to be applied consistently with, the Storm Water Management Ordinance. Pursuant to Zoning Ordinance Section 3:4.1, which provides that other requirements may be prescribed by the zoning ordinance, the following additional requirements shall apply to any application for a variance from the requirements of Sections 8:13.6, 8:13.7, or 8:13.8:
 - 1. Upon receipt of any such application, the Zoning Administrator shall refer the application to the Land Development Division. The Land Development Division shall perform a compliance review. The compliance review shall be provided to the Board of Zoning Appeals and made part of the record prior to any hearing on the application.
 - 2. The Board of Zoning Appeals shall consider the Land Development Division compliance review and shall address it in the written findings required by Section 3:4.1.
 - 3. The Board of Zoning Appeals shall not grant a variance from the requirements of Sections 8:13.6, 8:13.7, or 8:13.8 unless it finds, based upon the record including the compliance review of the Land Development Division, that the requested relief will follow the Waiver From Detention Request Policy.

- C. Violations. Violations of this Section are subject to the violations, penalties, and enforcement provisions of Article 13 of this Ordinance and, with respect to Sections 8:13.6, 8:13.7, and 8:13.8, the enforcement provisions of the Storm Water Management Ordinance.

AN ORDINANCE

AN ORDINANCE TO AMEND THE GREENVILLE COUNTY ZONING ORDINANCE, ARTICLE 8, SPECIAL PURPOSE AND REVIEW DISTRICT REGULATIONS, BY ADDING SECTION 8:13 TO ESTABLISH THE MOUNTAIN CREEK COMMUNITY (MCC) DISTRICT AS SHOWN ON THE MAP LABELED “EXHIBIT A” ATTACHED HERETO.

BE IT ORDAINED BY THE GREENVILLE COUNTY COUNCIL:

The Mountain Creek Community (MCC) District is established through an amendment to the Greenville County Zoning Ordinance to be included in Article 8 as a new overlay district authorized by S.C. Code Ann. § 6-29-720.

Section 1. Amendment to Article 8, Special Purpose and Review District Regulations by adding the following section:

Section 8:13 MCC, Mountain Creek Community District

8:13.1 Intent and Purpose

The intent and purpose of the Mountain Creek Community (MCC) District is to:

- A. Prevent flooding and storm water challenges within the Mountain Creek Watershed. This is particularly important on infill parcels with environmentally sensitive features that abut existing development, such as:
 - 1. Wetlands, floodplains, riparian areas, wildlife habitats, mature forests, and unique geological formations;
 - 2. Waterways, aquifers, and areas that provide water recharge;
 - 3. Steep slopes, ridges, gorges, and ravines; and
 - 4. Historic buildings, cemeteries, and lands, and designated open spaces.
- B. Improve screening and buffering requirements in order to:
 - 1. Preserve permeable open space and encourage preservation of valuable tree cover, which aids in diffusing rainfall;
 - 2. Promote the overall health and strength of the community's economy in order to maintain property values, preserve the community character, and foster ownership longevity;
 - 3. Screen vehicular drives and parking areas; and
 - 4. Preserve the lower density character of the MCC.
- C. Preserve open space in order to align with the goals of the 2020 Plan Greenville County Comprehensive Plan (Objective D-2).
- D. Provide for better protection of the district's historic sites, such as the Camp Sevier World War I training facility.

8:13.2 Applicability

The MCC shall apply to:

- A. All new major subdivisions;

- B. All existing major subdivisions which are substantially modified or expanded. For the purposes of this Section, “substantially modified” shall mean those requests which must be reviewed by the Greenville County Planning Commission according to Section 1.6.1 and Section 3.3 of the Greenville County Land Development Regulations.

This district, when applied, does not change the underlying zoning classification. All development shall comply with the requirements and standards specified herein and in all respects with other applicable codes and ordinances; where the standards of this Section conflict with other applicable standards, the more restrictive standard shall govern.

8:13.3 Official Mountain Creek Community District Boundary

The MCC boundary shall be shown on the Official Zoning Map of Greenville County as depicted on Exhibit A.

8:13.4 Definitions

For the purposes of this Section:

- A. “Storm Water Management Ordinance” or “SWO” means the Greenville County Storm Water Management Ordinance, Article III of Chapter 8 of the Greenville County Code, as amended.
- B. “Stormwater Management Design Manual” or “SMDM” means the Greenville County, South Carolina Stormwater Management Design Manual, as amended, adopted pursuant to the SWO.
- C. “Low Impact Development Best Management Practices” or “LID BMPs” means those best management practices that reduce runoff and pollutant loads by encouraging the interception, evapotranspiration, infiltration, and/or capture and reuse of storm water runoff, as identified as low impact development practices by the Land Development Division pursuant to the SMDM.
- D. “Total development acreage” means the gross acreage of the parcel or parcels subject to the development application, inclusive of areas to be dedicated as rights-of-way.
- E. References in this Section to specific sections, divisions, appendices, or technical specifications of the Storm Water Management Ordinance or the Stormwater Management Design Manual mean those provisions as amended from time to time and include any renumbered or successor provisions.

8:13.5 Forested Perimeter Buffer and Screening

- A. A minimum fifty (50) foot undisturbed buffer shall be provided along the perimeter of the development. Within the fifty (50) foot buffer, existing vegetation and trees shall be preserved except as otherwise permitted in subsection E below.
- B. Areas of the buffer which are lacking in existing trees shall be supplemented with planted trees at the following ratios:
 - 1. One (1) canopy tree per forty (40) linear feet of buffer length. Canopy trees shall have a minimum two-inch (2”) caliper at time of installation.
 - 2. One (1) understory tree per twenty (20) linear feet of buffer length. Understory trees shall have a minimum installed height of six (6) feet.
- C. In those areas where existing landscape does not create a visual screen between the development and adjoining road frontages, a landscape screen at least six (6) feet in height shall be provided. Screening shall consist of evergreen plants at least six (6) feet in height at time of planting and capable of forming a continuous screen. Screening plant material shall not be placed within twenty-five (25) feet of the road right-of-way and shall be arranged in an informal manner.

- D. Berms, privacy fences, and walls may not be utilized to meet the screening requirements and are not permitted within the required buffer area.
- E. The fifty (50) foot buffer provided along the existing road frontage adjoining the subdivision shall be designated as open space or common area. Permitted activities and development within the road frontage buffer are limited to the following:
 - 1. Street or driveway access;
 - 2. Walkways, paths, trails, and other elements associated with passive recreation or the provision of continuous pedestrian and bicycle connections between adjoining properties;
 - 3. Entrance features and signage to the extent permitted; and
 - 4. Clearing for sight distances as required for reasonable traffic safety.
- F. ~~In the event that~~If the required buffer is disturbed ~~and~~/or cleared in violation of this Section, the land grade shall be returned to its pre-disturbance state, ~~and the specified buffer width and planting requirements shall be doubled for the purposes of re-establishing the buffer area. Disturbed ground should be stabilized in accordance with the Greenville County stormwater requirements. The buffer area shall be planted with trees per the requirements of Section 8:13.5-B above.~~ This remedy is in addition to, and not in lieu of, the violations, penalties, and enforcement provisions of Article 13 of this Ordinance.

8:13.6 Stream Protection (Riparian Buffers)

- A. Applicability. Riparian buffers shall be provided along all classes of streams and jurisdictional waters of the state in accordance with the current Greenville County Storm Water Management Ordinance, including Section 8-69 (Stream Protection), and the Greenville County Stormwater Management Design Manual.
- B. Exemptions. In areas covered by an approved U.S. Army Corps of Engineers permit per the Clean Water Act, an applicant may be exempt from the County's riparian buffer requirements at the discretion of the County Engineer or the County Engineer's designee.
- C. Manual and Specifications. Riparian buffers must comply with Greenville County's "Riparian Buffer Design and Maintenance Manual" and the County's "Stormwater Management Design Manual Technical Specification WQ-11: Permanent Water Quality Stream Buffer."
- D. Delineation. Within the proposed project boundary, all jurisdictional waters or streams classified as waters of the state shall be delineated by a certified licensed professional using U.S. Army Corps of Engineers and SCDES Water Classifications and Standards and shall be shown in the Storm Water Management and Sediment Control Plan along with all natural buffer areas. Delineation as described in this Section is not required for preliminary plan review and approval.
- E. Buffer Requirements.
 - 1. A minimum 100-foot riparian buffer, as measured from the top of the stream bank inland, shall be established along each side of all intermittent, perennial, and blue line streams.
 - 2. A minimum 100-foot riparian buffer shall be established along all jurisdictional waters of the state.
 - 3. Where the Storm Water Management Ordinance requires a greater buffer width, the greater width shall apply.
- F. No Disturbance. Within a riparian buffer, the existing vegetation shall not be cleared or disturbed. Grading, stripping of topsoil, plowing, cultivating, filling, or storing materials and machinery are prohibited within the buffer, except as provided in the Storm Water Management Ordinance.

- G. Encroachments. The following structures and activities, if approved by the Greenville County Land Development Division or the State of South Carolina, are permitted within the riparian buffer:
1. Road crossings, bridges, trails, and utilities;
 2. Stream restoration projects;
 3. Scientific studies, including water quality monitoring and stream gauging;
 4. Horticultural practices, including thinning and planting, used to maintain the health of individual trees; and
 5. Removal of hazard trees and invasive species.

8:13.7 Storm Water Management

- A. General. All new development must meet the requirements of the current Greenville County Storm Water Management Ordinance. The additional requirements of this Section 8:13.7 and Section 8:13.8 apply within the MCC boundary and shall be administered, reviewed, and enforced by the Land Development Division in the same manner as the requirements of the Storm Water Management Ordinance.
- B. Enhanced Runoff Control. In addition to the requirements set forth in Storm Water Management Ordinance Section 8-74 (Minimum Runoff Control Requirements), sites within the MCC boundary shall control post-development peak discharge rates so as not to exceed pre-development peak discharge rates for the 100-Year Frequency Storm event.
- C. Definition. A “One Hundred (100) Year Frequency Storm” means a storm capable of producing rainfall expected to be equaled or exceeded on the average of once in 100 years. It also may be expressed as an exceedance probability with a one (1) percent chance of being equaled or exceeded in any given year.
- D. Impervious Surfaces. Impervious surfaces shall be minimized within the MCC boundary ~~whenever practicable~~, as determined by the Land Development Division during plan review.

8:13.8 Low Impact Development Features for Water Quality

- A. Purpose. Low impact development (LID) is used in Greenville County to reduce runoff and pollutant loads by utilizing storm water practices that encourage the interception, evapotranspiration, infiltration, and/or capture and reuse of storm water runoff.
- B. Applicability. This Section applies to all land disturbing activity, where appropriate, as defined in the current Greenville County Storm Water Management Ordinance, except any development activity expressly exempted by Storm Water Management Ordinance Section 8-57 (Prohibitions and Exemptions).
- C. Requirements.
1. All development subject to this Section shall include LID BMPs in the common areas and open spaces to achieve water quality by pollutant-of-concern reductions, in accordance with the SMDM.
 2. No more than six (6) lots within a major subdivision may have permitted individual-lot LID BMPs.
 3. The appropriateness of a particular LID BMP depends on a number of factors, including site characteristics, the proposed land use, and the proposed intensity or density of development. SMDM Appendix F (Post Construction Water Quality BMP Suggested Uses)

shall guide the selection of BMPs for a particular development site; qualifying LID BMPs shall be identified by the Land Development Division pursuant to subsection E below.

- D. Technical Infeasibility. An applicant may demonstrate technical infeasibility of LID BMPs through a site-specific analysis prepared by a registered professional engineer, subject to review and approval by the Land Development Division.
- E. LID Best Management Practices.
 - 1. Generally. LID BMPs that may be utilized on a site are limited to those identified as low impact development practices by the Land Development Division pursuant to the Greenville County, SC Stormwater Management Design Manual (SMDM).
 - 2. Design Standards. All LID BMPs utilized on a site shall meet the design and construction specifications and details established in the SMDM.

8:13.9 Open Space

8:13.9.1 Open Space Subdivision Design Requirements

8:13.9-1 Minimum Area

The minimum pre-developed area or tract size of an Open Space Residential Development within the MCC Overlay shall be eight (8) acres. The minimum pre-developed area shall consist of contiguous parcels, not divided by an existing public or private road or a recreational or navigable body of water.

8:13.9-2 Minimum Lot Size

Minimum lot size for lots within a Conservation Subdivision shall be 6,000 square feet.

8:13.9-3 Setbacks

Buildings shall not be erected within the required buffer yard areas, otherwise front, side and rear setbacks shall be in accordance with the requirements outlined in the appropriate zoning district and listed in Section 7:3 and Table 7:3.1.

8:13.9-4 Density (lots per acre)

The maximum gross density (number of lots allowed per acre) is determined by the parcels underlying zoning (Table 7.1 in the Greenville County Zoning Ordinance). The lot density calculation is based on total gross acreage of the parent tract or parcel, excluding any utility right-of-way. Pre-developed parcels used to calculate lot density must be contiguous. In instances where pre-developed parcels are noncontiguous or a parent tract is separated by a road, the lot density and required open space will be calculated separately based on the gross acreage of each tract or noncontiguous parcel. Density may not be transferred to noncontiguous parcels of land or tracts separated by a road.

8:13.9-5 Open Space Requirements

- A. At least 50% of land area of the total acreage to be subdivided, including developable and undevelopable land, shall be set aside as protected open space for natural habitat preservation, passive recreation, and/or conservation for agriculture.
- B. Designated open space shall be contiguous with open space uses on adjacent parcels in order to provide large uninterrupted expanses of open space.
- C. All open space areas shall have a minimum of one primary access point from an internal subdivision road. Additional secondary access points are encouraged. The primary access points shall not be less than twenty (20) feet in width. Additional secondary access points shall not be

less than six (6) feet in width. Primary and secondary access points to open space shall be shown as part of the open space and shall not be part of an individual lot nor shall it be an easement.

D. Land dedicated for open space shall not include rights-of-way of high-tension electrical transmission lines, oil or natural gas lines, the rights-of-way of existing and proposed streets or such uses as community swimming pool(s), clubhouses and similar uses. Recreational lake or ponds may be included in the land designated as open space. Fenced detention or retention areas used for storm water management shall not be included in the calculation of the required open space.

E. All required buffers may be credited toward meeting open space requirements 8-32.

F. No more than fifty percent (50%) of designated open space shall be wetlands and/or floodplains.

8:13.9.1 Open Space Requirements

- ~~A. At least fifty percent (50%) of the total development acreage shall be set aside as protected open space for natural habitat preservation, passive recreation, and/or conservation for agriculture.~~
- ~~A. Permitted residential density and open space design shall adhere to Sections 11.3 and 11.4 of the Greenville County Land Development Regulations.~~
- ~~A. Where existing, designated open space exists on adjacent parcels, designated open space shall be contiguous with such open space in order to provide large uninterrupted expanses of open space~~
- ~~A. All open space areas shall have a minimum of one primary access point from an internal subdivision road. Additional secondary access points are encouraged. Primary access points shall not be less than twenty (20) feet in width. Secondary access points shall not be less than six (6) feet in width. Primary and secondary access points to open space shall be shown as part of the open space and shall not be part of an individual lot, nor shall they be easements.~~
- ~~A. Land dedicated for open space shall not include rights of way of high tension electrical transmission lines, oil or natural gas lines, the rights of way of existing and proposed streets, or such uses as community swimming pool(s), clubhouses, and similar uses. Fenced detention or retention areas used for storm water management shall not be included in the calculation of the required open space. Recreational lakes or ponds may be included in the land designated as open space.~~
- ~~A. All required buffers may be credited toward meeting open space requirements.~~
- ~~A. No more than fifty percent (50%) of designated open space shall be wetlands and/or floodplains.~~
- ~~A. Open space shall be physically connected, whenever possible, to other designated open spaces.~~

8:13.9.2 Open Space Ownership and Management

The developer or subdivider shall select the land dedicated for open space and the type of ownership. Ownership of the designated open space may be held by:

- A. Non-profit or quasi-public organizations committed to the protection and conservation of open space, subject to their acceptance;
- B. A homeowners association, or cooperative associations or organizations;
- C. Shared, undivided interest by all property owners within the subdivision; or
- D. Public jurisdictions or agencies, subject to their acceptance.

8:13.9.3 Open Space Maintenance

Designated open space shall be maintained in a natural condition but may be modified to improve appearance, functioning, or overall condition. Normal maintenance and the removal of dead or fallen trees are permitted and recommended. The cost and responsibility of maintaining open space and any facilities located thereon shall be borne by the property owner and/or homeowners association. Permitted modifications may include:

- A. Reforestation and forest management;
- B. Pasture or cropland management;
- C. Landscaping to enhance appearance and screening;
- D. Removal of invasive species;
- E. Stream bank protection; and
- F. Passive recreation such as trails, picnic areas, and common greens.

8:13.10 Historic Preservation

“Historic sites” means those buildings, sites, objects, structures, or districts that are:

- A. Listed on the National Register of Historic Places;
- B. Determined eligible for listing on the National Register of Historic Places by the South Carolina State Historic Preservation Office; or
- C. Designated as locally historic properties by County Council pursuant to Section 8:7.1-7, Designation of Historic Properties.

The location of all Historic Sites must be noted on plats. Historic Sites must be preserved whenever possible, unless to do so would cause substantial hardship, as defined in Section 8:7.2-10 of the Zoning Ordinance.

8:13.11 Administration, Relief, and Enforcement

- A. Administration. The Zoning Administrator shall administer and enforce Sections 8:13.5 (Forested Perimeter Buffer and Screening), 8:13.9 (Open Space), and 8:13.10 (Historic Preservation). The Land Development Division shall administer and enforce Sections 8:13.6 (Stream Protection) and 8:13.7 and 8:13.8 (Storm Water Management and Low Impact Development) in conjunction with its administration of the Storm Water Management Ordinance and the Land Development Regulations.
- B. Variances from Storm Water and Stream Protection Requirements. All variance requests concerning storm water and streams must satisfy the requirements outlined in the Greenville County Storm Water Ordinance. The requirements of Sections 8:13.6, 8:13.7, and 8:13.8 are adopted in furtherance of, and are to be applied consistently with, the Storm Water Management Ordinance. Pursuant to Zoning Ordinance Section 3:4.1, which provides that other requirements may be prescribed by the zoning ordinance, the following additional requirements shall apply to any application for a variance from the requirements of Sections 8:13.6, 8:13.7, or 8:13.8:
 - 1.—~~Upon receipt of any such application, the Zoning Administrator shall refer the application to the Land Development Division. The Land Development Division shall perform a compliance review. The compliance review shall be provided to the Board of Zoning Appeals and made part of the record prior to any hearing on the application.~~
 - 2.—~~The Board of Zoning Appeals shall consider the Land Development Division compliance review and shall address it in the written findings required by Section 3:4.1.~~

~~3. The Board of Zoning Appeals shall not grant a variance from the requirements of Sections 8:13.6, 8:13.7, or 8:13.8 unless it finds, based upon the record including the compliance review of the Land Development Division, that the requested relief will follow the Waiver From Detention Request Policy.~~

- C. Violations. Violations of this Section ~~are subject to the violations, penalties, and enforcement provisions of Article 13 of this Ordinance and, with respect to Sections 8:13.6, 8:13.7, and 8:13.8, will be handled through~~ the enforcement provisions of the Storm Water Management Ordinance.

Section 2. Amendment to the Greenville County Zoning Map. The Greenville County Zoning Map is amended to include the changes to the zoning map as shown in **Exhibit A** so that the area is designated as the MCC District.

Section 3. Severability. Severability is intended throughout and within the provisions of this Ordinance. If any section, subsection, sentence, clause, phrase, or portion of this Ordinance is held to be invalid or unconstitutional by a court of competent jurisdiction, then that decision shall not affect the validity of the remaining portions of this Ordinance.

Section 4. Repeal. All ordinances or parts of ordinances in conflict with this Ordinance, or inconsistent with its provisions, are hereby repealed or superseded to the extent necessary to give this Ordinance full force and effect.

Section 5. Effective Date. This Ordinance shall take effect upon the date of its adoption.

ATTEST:

Benton Blount, Chairman
Greenville County Council

Regina McCaskill
Clerk to Council

Joseph M. Kernell
County Administrator
