Notes:

GASB 34 was implemented in fiscal year 2002. Net asset information is not available prior to that fiscal year.

The County elected to defer the reporting of the stormwater network infrastructure until fiscal year 2006. The increase in "invested in capital assets" for the governmental activities in FY2006 resulted from the recording of these assets.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the county. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the County of Greenville. This process recognizes that, when considering the government's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident and, therefore, responsible for repaying the debt of each overlapping government.
