When

Thurs. November 21st, 2019
9:30am – 2:00pm

LUNCH PROVIDED

Where

Suite 400

Cost is \$15

**Please label check for
LDD Training**

**Register by check
by November 15,
2019**

Greenville County will conduct a half day training course designed for **the local engineering community on several topics related to construction, but predominantly related to post construction BMPs.**

The purpose of this training is to:

- Communicate general results of SCDHEC's audit of local construction plans
- Describe County efforts to improve construction inspections
- Introduce and explain updated guidance for post construction BMPs including:
 - Level Spreader for Water Quality
 - Level Dissipator for Energy Dissipation
 - Vegetated Filter Strip
- Provide guidance regarding modeling stream buffers in IDEAL
- Introduce the County's new post-construction residential LID BMP Handbook

Local site design firms are highly encouraged to provide representation at the training.

Registration

Register by check November 15, 2019 by sending in a \$15 check made payable to Greenville County LDD. Send to:

Attn: Virginia Wagoner
Greenville County Land Development
301 University Ridge, Suite 3900
Greenville, SC 29601
