LID CONSTRUCTION CERTIFICATION FORM Level Spreader Page 1 of 2

Project Name: ______ Permit Number: ______

- 1. Contact the project's assigned LID Inspector at least one (1) day prior to the start of construction on any LID, including excavation for the LID. LIDs installed must be observed by the LID Inspector.
- 2. Provide the LID Inspector with an estimated schedule for the placement of any of the following: geotextile, stone, storage media, piping, soil, etc.
- 3. Provide the following information about the LID.

| Required Documents | Receipt # | Professional's Initials & Date |
|--|-----------|-----------------------------------|
| Copies of receipts for stone (clean washed stone, if required) | | |
| Copies of receipts for vegetation/seeding, if required (NOT Bermuda) | | |

| Required Photos | Photo # (one photo per feature) | Professional's Initials & Date |
|--|------------------------------------|-----------------------------------|
| Photos showing depth of excavation bottom to inflow pipe invert and excavation to overflow lip (with tape measure as size reference) | | |
| Photos showing the placement of clean washed stone and perforated piping ** | | |
| Photos showing the placement of turf reinforcement matting or geotextile fabric downstream of level spreader ** | | |
| Photos showing the area downstream of the level spreader stabilized with vegetation (sod to be stapled/secured) ** | | |
| Photos showing engineered level spreader includes bypass structure to divert larger storm event runoff around vegetated filter strip per approved plans (Commercial Only) | | |
| Photos showing engineered level spreader includes pretreatment structure (forebay, gravel diaphragm, etc.) per approved plans. (Commercial Only) | | |
| Photos showing light grading required to establish upper boundary for conserved open space performed with light equipment/minimal impact to existing vegetation. | | |

Greenville County Land Development Inspector required

LID CONSTRUCTION CERTIFICATION FORM Level Spreader Page 2 of 2

By signing this form, the registered professional indicated below certifies that they, or a designee, were present during the required installation associated with the LID listed above, and that, to the best of their knowledge, information, and belief, these measurements are in general accordance with the Approved Plans/Details.

Please note that the elements listed above must be reflected on the project's As-built survey. The Project's Construction Certification Package, which must be submitted with the As-built Survey, must include digital copies of all LID Construction Certification Forms (one per type of LID) and digital copies of the photographs required on these forms.
