LID CONSTRUCTION CERTIFICATION FORM
 Modified French Drain/Dry Wells

Project Name: _____ Permit Number: _____

1. Contact the project’s assigned LID Inspector at least one (1) day prior to the start of construction on any LID, including excavation for the LID. LIDs installed must be observed by the LID Inspector.
2. Provide the LID Inspector with an estimated schedule for the placement of any of the following: geotextile, stone, storage media, piping, soil, etc.
3. Provide the following information about the LID.

Required Documents	Receipt #	Professional’s Initials & Date
Copies of receipts for stone clean washed stone		
Copies of receipts for soil amendments, filter media mix (if applicable)		

Required Photos	Photo # (one photo per feature)	Professional’s Initials & Date
Photo(s) showing basin protected from sediment and compaction during construction (E&S controls around the basin) **		
Photo(s) verifying that the system location is staked **		
Photos showing the bottom of the flat, scarified, non-compacted basin before installation of geotextile or pea gravel		
Photos showing bottom of the basin after installation of geotextile or pea gravel		
Photos showing outlet structure, including internal weirs and/or orifices, and outlet pipes (with take measure as size reference)		
Photo(s) showing installation of perforated pipes/storage units (tops showing with stone filled around them) ** (+)		
Photos showing installation of observation well(s)		
Photos showing the completed installation with stone to finished bed elevation and geotextile in place (prior to backfill) **		

(+) Obtain Water Quality Easement Survey Plat

****Greenville County Land Development Inspector required****

LID CONSTRUCTION CERTIFICATION FORM

Modified French Drain/Dry Wells

Page 2 of 2

By signing this form, the registered professional indicated below certifies that they, or a designee, were present during the required installation associated with the LID listed above, and that, to the best of their knowledge, information, and belief, these measurements are in general accordance with the Approved Plans/Details.

Please note that the elements listed above must be reflected on the project's As-built survey. The Project's Construction Certification Package, which must be submitted with the As-built Survey, must include digital copies of all LID Construction Certification Forms (one per type of LID) and digital copies of the photographs required on these forms.
