

SUMMARY PLAT APPROVAL

EFFECTIVE: August 1, 2026

Digital approvals for Summary Plats are only valid so long as the information within them remains accurate. If information on the plat has changed between the time of approval and the time of signature and recording, the digital approval may be voided as the plat is no longer accurate. This includes a change in subject or adjoining property owner information, a change in subject or adjoining property lines, or road name change. Please ensure that all Summary Plats are accurate at the time of recording.
