Training and Field Day Location

TRI/Environmental’s
Denver Downs Research Facility
4915 Clemson Blvd., Anderson, SC 29621
(1/4-mile north of I-85, Exit 19B.
Turn left at the silos!)

Organizing Committee

General Chair
J.P. Johns, Woolpert

Local Arrangements
C. Joel Sprague, TRI/Environmental, Inc.
Judy Wortkoetter, Greenville County

Technical Program
Dr. Cal Sawyer, Clemson University
Dr. Charles Privette, Clemson University

Local Exhibit & Demonstration Coordination
Jay Sprague, TRI/Environmental, Inc.

None of the organizing or sponsoring committee agencies endorses any of the specific products being highlighted. The goal of this event is to educate the audience on the fact that there are numerous products available to supplement or replace traditional Erosion Prevention and Sediment Control BMPs. There are many BMPs available for use on construction sites to control erosion and prevent offsite sedimentation. All have applications and all have limitations. BMPs should be chosen based upon their applicability to the site and situation.
