

3. Beginning at the above substation, all those poles, wires and apparatus being a part of the distribution system (but excluding runway lighting, ornamental lighting, such as swimming pool and ball park, obstructive lighting, and approach lighting), and consisting of the following approximations: 19.5 miles of 2-wire and 3-wire primary system; 355 units of transformers with associated equipment; one (1) Westinghouse, 600 amperes oil circuit breaker; 7.5 miles of one and two wire street lighting circuits, 150 fixtures, 3 lighting transformers and switches; 12.5 miles of 3-wire and 4-wire secondary including 3-wire and 4-wire building services; .9 miles of underground primary wires and conduits.

Said property being located upon the real property conveyed to Grantors by deed of the United States of America dated January 24, 1964, and recorded in Book of Deeds 740 at pages 573 to 586 inclusive in the R.M.C. Office for Greenville County, S.C.

PART IV

And for the consideration above set out, Grantors do grant and convey unto the Grantee, its successors and assigns, the following rights, privileges and easements over those certain parcels of land described in a deed from the United States of America to Grantors dated January 24, 1964 and recorded in Book of Deeds 740 at pages 573 to 586 inclusive in the R.M.C. Office for Greenville County, S.C.:

- A. The right and easement to go in and upon the lands of the Grantors in the above mentioned property,
