GREENVILLE CO. S. C.
MARGARET W. ROSS

This matter comes before me upon a Consent Order by the attorney representing Gantt District, consented to by attorney for the landowner, in view of the fact that these parties have reached a compromise settlement of this case pending an appeal, and that the landowner is by reason of the settlement abandoning the appeal.

It was further felt that a Supplemental Order was necessary to correct the possibility of any deficiency which may have existed in the previous Order, if any.

The property involved in this condemnation proceeding is that property shown upon Block Book Sheet WG 6.1, Block 1, Lot 14. The sewer line crosses this property for a distance of some 1200 feet, more or less, and has several manhole covers. This Court has already determined the necessity for the taking and based upon information then before it, had made mention of 800 feet, more or less. In view of that discrepancy, it is now acknowledged by the parties that the line transacts the whole length of the property for a distance of 1200 feet, more or less.

Upon motion of the attorney representing Gantt, which motion is consented to by attorney for the landowner, upon the basis of the settlement and abandonment of the appeal, this matter is ended with prejudice.
