

## THE FEDERAL LAND BANK OF COLUMBIA.

## TRACING SHEET FOR PLATS.

Application 145837  
Wells B. Kilgore and Nida H. Kilgore

Lands of

Mr. B. Kilgore

This sheet may be used for tracing plats of tracts of the lands abstracted in the chain of title. Place this sheet over the plat to be traced so that the name will appear as nearly in the center of the sheet as possible; then trace all lines, courses and distances. Always show all adjoining landowners and indicate the point of the compass, and copy all legends explanatory thereof, showing the date of survey, purpose of the same by whom made.

If the plat is too large to be traced on this sheet, make the tracing first on Sheet Q-1, and then repeat it on Sheet Q-2, the following next corner, etc., until the entire tract is traced. Assume that a certain corner on the tracing of Sheet Q-1 lies within Block 14-G. Refer to Sheet Q-1 and locate this corner in corresponding Block 14-G. The next corner on Sheet Q-2 lies within Block K-1. Refer to Sheet Q-2 and locate this corner in the corresponding Block K-1. A line connecting these two points as the corresponding points on Block Q-1 and Block Q-2, connects the two tracts so traced. Continue the perimeter of the plat of tract traced on Sheet Q-1, locating the corresponding corner on Sheet Q-2, and connecting it to the corner previously located until the point of departure is reached.

This sheet must be inserted in the abstract at the proper place, which is immediately following the instrument or proceedings which refer to the plat, of which this is a copy.
