35368
INDEX NUMBER
82494

CONSTRUCTION - Roofs and floors are approximately 3 1/2" plank on timber partly on steel beams or steel truss. 2" Power Reinforced Concrete or Brick Arch; 4" Boards on Joists, 1/2" concrete from on joists. Some Concrete Slab on 2" joists.
POWER - 500 KVA - electric Transmission; 50% Electricity Purchased - 2000 - 2500 - 5507.
RAW STOCK - Baled Cotton.
PRODUCT - Broad Cloth.
WREN TUBE - 2500 Spindles; 500 Dobby Looms.
WATCH SERVICE - Hourly rounds night and day.
SPRINKLERS - Fed by Tank and Pumps.
PRIVATE WATER - Distribution System owned by Assured Water Supply through Metered Connection to City of Great Falls. Main Direct Pumping System with Overflow to Tank. Total capacity 50000 Gal. Pumps total capacity 2500 G.P.M. (2500 G.P.M.) taking suction from a 625000 Gal. Clear Water Reservoir which is supplied from a Filtration Plant (total capacity 1 M.G.D.) Filtration Plant is supplied by Gravity from a 2500 M.G.D. Reservoir which is kept filled by Pumps. Total capacity 3 M.G.D. taking suction from South Tiger River. Average daily consumption 400 M.G.D.
ASSISTANCE - 1 Pump; answers 1st Alarm.

COLOR KEY
 Gravel floors and roofs, if either deck or surface are constructed of concrete, asphalt, or stone or gravel. (See Notes)
 Surf and floors of concrete, masonry, steel beams or steel trusses (standard mill) Surf and floors of concrete, masonry, steel beams or steel trusses, and girders on ungrouted steel supports, and girders on concrete supports, and girders on steel supports.
 Surf and floors of concrete, masonry, steel beams or steel trusses, and girders on ungrouted steel supports, and girders on concrete supports, and girders on steel supports.
 Two or more of the above classes combined in a single building.
