*50*  
*Camp Sevier*

~~Extract~~- Full Copy

1. Sometime ago I received a shipment of supplies from W. S. Rowland, Am. Univ. Wash. D. C. This shipment consisted of three small bottles of Chemicals in tin cans surrounded by sawdust and packed in a lead container.
2. There were no identification marks on any of the cans except one was marked "Mus" and another one had the number 25 on its top.
3. The bottle not marked in any way was broken or leaked in transit.
4. Request that I be informed as to the contents of these three bottles.

G. P. Patterson 1st. Lt. C.W.S.
