ISSUED: April 16, 2020

NOTICE TO VENDORS:

The following revisions, additions, and clarifications are hereby made part of the Contract Documents for the above-referenced project and shall be taken into account in the preparation of all proposals and the execution of all work. Responders shall acknowledge receipt of the Questions and Answers in their bid.

The following questions were submitted for Professional Engineering Services for Parking Lot Renovations, RFQ #20098:

Q1. Does the County anticipate any site lighting requirements for this project (either new pole lighting or relocation of existing lighting)?

A1. Greenville County is working with an Electrical Engineer to obtain a design. Coordination in planning will be required to ensure both parties understand the full scope and responsibilities of each party. Greenville County will coordinate with both the Civil and Electrical Engineers.

Q2. What is a Shelter Land Disturbance Permit? Is this a currently open Land Disturbance Permit for a shelter being built that just needs a modification for the new work?

A2. Yes, there is currently an Open Land Disturbance Permit for renovations being completed at the existing shelters. The parking lot renovations are outside of the existing limits of disturbance; therefore, SCDHEC may require either a modification to the existing permit, or a new permit.

Q3. Section II, B (2) (g), states “Add crosswalk with traffic calming access from parking lot to shelter sidewalk.” Does the traffic calming refer to a raised crosswalk, or some other method?

A3. Traffic Calming refers to the installation of features to reduce speed, such as: speed humps, appropriate signage, crosswalk(s), etc.

Q4. Can the County clarify the deadline for submittals, Page 2, states that the Due Date is April 21, 2020 at 3:00 PM, but Page 5, states that bids are due on April 20, 2020 at 3:00PM.

A4. Please see Addendum #1.
