MESSAGE FROM THE SOLICITOR

The Alcohol Education Program provides resources to educate our young adults on the negative consequences of alcohol abuse and addiction in our community. I believe this program will start the process of changing thoughts, behaviors and actions which will allow young adults to make responsible decisions. Our goal is to equip them with tools needed to resist social pressures of underage drinking.

It is my hope that this program will give young adults the courage to make wiser choices. If a young adult believes that choices made today will impact their future, we not only change their current circumstances but we improve our entire community.
